Sidoarjo, Indonesia | juwitanur23@gmail.com | +6285806816530 | [Portfolio](#) | [Linkedin](#)

## Education

Sepuluh Nopember Institute of Technology (ITS)  
Bachelor of Applied Business Statistics (GPA: 3.75/4.00)

Aug 2022 - Aug 2026

## Experience

PT Borwita Citra Prima  
HR Analyst (Internship)

Jan 2026 - July 2026

- Managed and validated 10,000+ employee records using Google Sheets, performing data cleaning, reconciliation, and quality checks to ensure accurate and consistent HR data for talent management reporting, employee development, and workforce analysis.
- Built ETL workflows to clean, transform, and consolidate employee data into interactive Looker Studio dashboards, enabling real-time KPI tracking and reducing manual reporting time by 98%.
- Built automation web-based Internship Management and Talent Management Systems using HTML, CSS, JavaScript, AppScript, and Google Sheets, centralizing 86 recruitment requests and 40+ interns while reducing weekly recap time by 97%.
- Analyzed employee engagement data from 2,454 employees using K-Means clustering, SHAP, and IPA to identify workforce segments, engagement drivers, and improvement priorities for organization development initiatives.

PT PLN Nusantara Power  
Data Intern (Internship)

Jan 2025 - Feb 2025

- Analyzed, validated, and standardized 1,000+ governance, operational, ESG, and workforce data points using Excel across 15+ reporting modules, ensuring data accuracy for the Annual Report and Sustainability Report.
- Consolidated and cleaned cross-functional datasets to prepare reporting-ready visualizations, ensuring data accuracy for the 2024 Statistics and Sustainability Reports.

Assistant Lecturer at Sepuluh Nopember Institute of Technology (ITS)  
Statistical Quality Control (Contract)

Mar 2025 - Jun 2025

- Facilitated Statistical Quality Control practicum sessions for 30+ students, teaching industrial applications of control charts, process capability, and acceptance sampling, achieving a 97% student satisfaction rate.
- Evaluated practicum reports and student presentations, mentoring students to successfully apply statistical methods in formulating data-driven procedures for business problem-solving.

Sepuluh Nopember Institute of Technology (ITS)  
Experimental Design (Assistant Lecturer)

Sep 2024 - Dec 2024

- Guided 30+ students in applying experimental design concepts, including Completely Randomized Design (CRD), Randomized Complete Block Design (RCBD), and Incomplete Block Design, using Excel, Minitab, and R.
- Assessed student performance through practical sessions and real-world case studies, providing feedback and technical assistance that contributed to an average final class grade of over 85.

## Projects

Sales Analyst

June 2026 - July 2026

Built an end-to-end sales analytics pipeline (Excel, MySQL, Python, Power BI/DAX) processing 6,000+ transactions to track daily STD/STT and CWO by distributor, automate sales anomaly detection, and power a 4-page RFM-segmented dashboard for management decision-making.

Inventory Analyst

June 2026 - July 2026

Designed a normalized SQL database, built a Python forecasting and anomaly detection pipeline that identified a 64.3% branch sales deviation, and developed a 5-page interactive Power BI dashboard with actionable business recommendations.

Stock Portfolio Optimization (Thesis)

Feb 2025 - Sept 2025

Built an interactive Streamlit web app using Python and the Artificial Bee Colony algorithm to optimize a 25-stock SRI-KEHATI portfolio based on the Cardinality Constrained Mean-Variance model, achieving a peak Sharpe ratio of 27.59% for an optimal 9-stock allocation.

## Organizational Experience

Himpunan Mahasiswa Diploma Statistika ITS  
Head of Advocacy and Student Welfare Division

Jan 2025 - Dec 2025

- Led the Advocacy and Student Welfare Division by coordinating a 3-member team to execute academic support and student welfare programs for Business Statistics students.
- Coordinated major academic initiatives, including a Scholarship Preparation Webinar (100+ participants; 15% scholarship applicants vs 10% target) and a 10-session exam tutorial program with 300+ participants and 98.1% satisfaction rate.

Himpunan Mahasiswa Diploma Statistika ITS  
Staff of Advocacy and Student Welfare Division

Mar 2024 - Dec 2024

- Created and managed a Student Feedback Form to collect and relay academic concerns from 300+ Business Statistics students to the department administration, earning recognition as Best Staff based on official division evaluation.

Secretarial

- Led and mentored 20+ freshmen throughout GERIGI ITS 2023, coordinating campus orientation activities, managing participant administration and personal data, and achieving a 97% satisfaction rate.

Achievements

|                                                                                                                                           |           |
|-------------------------------------------------------------------------------------------------------------------------------------------|-----------|
| <b>Awardee of HETI ADB ITS Funding 2025</b>                                                                                               | July 2025 |
| Selected as one of Higher Education for Technology and Innovation grant recipient among 150+ applicants                                   |           |
| <b>Awardee of ITS Youth Entrepreneurship Funding 2024</b>                                                                                 | Oct 2024  |
| Selected as one of ITS Youth Technopreneur grant recipient among 180+ applicants                                                          |           |
| <b>Seventseas Business Plan Competition</b>                                                                                               | Sep 2024  |
| 1st Runner-Up Seventseas Business Plan Competition at Brawijaya University                                                                |           |
| <b>Awardee of PKM-K 2024 Funding by Kemendikbudristek</b>                                                                                 | Apr 2024  |
| Successfully obtained funding from Kemendikbudristek through BELMAWA and ITS Campus for the development of a sustainable business project |           |

Skills

|                                 |                                                                                             |
|---------------------------------|---------------------------------------------------------------------------------------------|
| • <b>Programming &amp; Data</b> | : Python (Pandas, Scikit-learn, Matplotlib, Plotly), SQL (MySQL), R, Google Apps Script     |
| • <b>Data Visualization</b>     | : Power BI, Looker Studio, Tableau                                                          |
| • <b>Data Analysis</b>          | : Excel, Power Query, SPSS, Minitab                                                         |
| • <b>Core Competencies</b>      | : Statistical Modeling, Machine Learning, ETL Pipelines, Predictive Analytics, Forecasting. |

Certification

- **Business Intelligence (BI) Analyst Certification** - BNSP (2026)
- **Data Science** - Dicoding Indonesia (2026)
- **Structured Query Language (SQL)** - Dicoding Indonesia (2026)
- **Machine Learning** - Dicoding Indonesia (2026)
